TO WHOM IT MAY CONCERN

The Lunglei Municipal Council (LMC), being the local governing authority responsible for urban infrastructure, strongly supports the proposed project on Installation of CCTV Surveillance System and Solar Street Lights in Lunglei Town, Mizoram.

As the second-largest town in Mizoram, Lunglei faces growing urbanization challenges, including women and child safety, traffic hazards, and inadequate public lighting. These gaps restrict the free movement of women, limit educational opportunities for children, and create insecurity in public spaces.

The Municipal Council firmly believes that:

1. CCTV Surveillance System will provide much-needed real-time monitoring of sensitive areas, improve law enforcement capacity, and serve as a deterrent to crime.
2. Solar-Powered Street Lights will ensure reliable illumination even during frequent power disruptions, thereby creating safe corridors for women, schoolchildren, and daily commuters.
3. Command & Control Centre will integrate technology into governance, ensuring timely responses to emergencies, crime, and accidents.
4. The project will result in long-term social and economic benefits, including improved public confidence, safer business corridors, and sustainable energy savings.

The LMC commits to:

- Facilitating site identification and community consultations.
- Extending full cooperation in project execution.
- Taking responsibility, in collaboration with Mizoram Police, for operation and maintenance of the installed infrastructure after commissioning.

In view of the above, the Lunglei Municipal Council wholeheartedly endorses this project and recommends its approval under the Nirbhaya Fund for 100% financial support. This project will significantly contribute to the safety, security, and well-being of the people of Lunglei, with particular emphasis on protecting women and children.
